1. Prerequisite of Enhanced Service – Develop/Maintain Patient Participation Group (PPG)

Does the Practice have a PPG? YES

The practice has a PPG since 2011. The group operates via email and also face to face meetings held in the surgery. The group is made up of volunteers from amongst our patients. We try our best to ensure the group reflects the make up of our practice population. The function of the group is to look at aspects of the care we deliver from a patients perspective and to help us to monitor and improve services for all our patients. We thus routinely ask the group for their views on services at the practice.

Method of engagement with PPG: Face to Face, E-mail, other (please specify) Face to face & Email

Number of members of PPG: 14
